About Prestone

For over 50 years Prestone Printing Co. has been synonymous with dependable, careful prepress and printing. We provide complete in-house digital output, sheet-fed lithography, binding and fulfillment services.

A photograph showing the interior of a printing plant. In the foreground, a control room desk is visible with a computer monitor, keyboard, and mouse. In the background, large industrial printing presses are in operation, with paper sheets being processed. The facility is well-lit and organized.

The consistency of color calibration from our device to our customer's has been remarkably accurate and consistent. The fidelity of the Epson proofs to our digital halftone proofs has been remarkable.
